## Coronavirus Disease 2019 (COVID-19)

Report Date:

11/28/2020

Report Time:

### Situation Overview

- **California State of Emergency Proclamation**

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the State prepare for broader spread of COVID-19.

- **Global Health Advisory**

On August 6, 2020, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on March 19, 2020, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov>.

- **Executive Order N-33-20**

On August 28, 2020, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **FEMA-4482-DR-CA**

On March 22, 2020, President Trump approved Major Declaration FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

### Situation Cell Overview

Most Red Flag Warnings have expired the last one for Los Angeles County expires at 1800 hours today. The critical fire weather conditions continue through this afternoon for the Santa Clarita Valley, Ventura County Coastal and Interior Valleys, Los Angeles County Mountains, Angeles National Forest, Santa Monica Mountains Recreational Area, Ventura County Mountains, and Los Padres National Forest

- Santa Ana winds will remain gusty up to 45 mph, slowly diminishing through the afternoon
- Very low humidity also expected
- New fires could still spread quickly today with these expected conditions

### Key Points

- SCE has notified Cal OES that they are Activating PSPS Protocols/ De-energization Initiated
- SDG&E have notified Cal OES that they are Activating PSPS Protocols/Potential to De-energize PSPS Stage
- Critical fire weather conditions could lead to rapid spread of any new fires.

### Potential Impacts

- High winds in combination with dry surface fuels bring critical fire weather conditions.

### Weather

#### **Northern California Geographical Coordination Center (Northern GACC):**

Fuels indices have moderated quite a bit in the past two weeks due to occasional precipitation and long cool nights with strong inversions. However, in many areas indices are still not to seasonal normal levels. A few local spots in the central and southern Sacramento Valley and foothills and lower elevations of the Bay Area have only received very light rain and remain drier. These areas would be more vulnerable to fire spread during dry, windy conditions, such as those expected next Tuesday through Thursday. Abundant grass is cured across the region however, a light flush of new growth and compression of the old growth is expected in the low elevation areas that receive heavier rainfall. Snow has occurred across portions of the high country, though is mainly limited areas above 6000 ft.

#### **Southern California Geographical Coordination Center (Southern GACC):**

Weak high pressure aloft will hold over the area through the weekend. The high pressure will then build just offshore of the west coast Monday through Wednesday as low pressure aloft digs into the desert southwest. There is much uncertainty concerning the forecast from Tuesday through the end of the work week. Another Santa Ana wind event is possible during this time, but the specific strength and the specific timing of this event are not yet defined. One thing is certain: the weather pattern will continue to be very dry, with low humidity and no chance of rain for the next week. Local northeast winds of 10 to 20 mph with gusts to 35 mph across the mountains and below the canyons and passes of Southern California through this weekend. Strong and gusty offshore winds will be possible across Southern California once again starting either Tuesday or not until Thursday. If these winds occur, they may continue through the end of week. Minimum humidity will be mainly in the single digits and teens, and humidity recovery will be poor away from the San Joaquin Valley through the end of next week. Temperatures will be around 5 degrees above normal through the end of next week, with 50s to low 60s across the mountains and upper 60s and 70s in the valleys.

### Santa Ana Wildfire Threat Index

Local northeast winds of 10 to 20 mph with gusts to 35 mph will surface across the mountains and below the canyons and passes throughout the day. There will continue to be widespread minimum humidity in the single digits along with poor humidity recovery in the evening. Fuels will be very dry.

Zones	Sat/Nov 28	Sun/Nov 29	Mon/Nov 30
Zone 1: LA-Ventura			
Zone 2: Orange-Inland Empire			
Zone 3: San Diego			
Zone 4: Santa Barbara			

NO RATING	Winds are either not expected, will not contribute to significant fire activity.
MARGINAL	Upon ignition, fires may grow rapidly.
MODERATE	Upon ignition, fires will grow rapidly and will be difficult to control.
HIGH	Upon ignition, fires will grow very rapidly, will burn intensely, and will be very difficult to control.
EXTREME	Upon ignition, fires will have extreme growth, will burn very intensely, and will be uncontrollable.

### National Weather Service (NWS)

- Critical fire weather conditions continue through this afternoon for the Santa Clarita Valley, Ventura County Coastal and Interior Valleys, Los Angeles County Mountains, Angeles National Forest, Santa Monica Mountains Recreational Area, Ventura County Mountains, and Los Padres National Forest
- Santa Ana winds will remain gusty up to 45 mph, slowly diminishing through the afternoon
- Very low humidity also expected
- New fires could still spread quickly today with these expected conditions
- Elevated fire weather conditions may linger across southwest California Sunday as winds remain a bit gusty, though not nearly as strong as those expected today
- Another round of stronger Santa Ana winds and elevated fire weather conditions is possible Tuesday through Thursday across southern California
